

# South Eastern Radio on air for new trial

SOUTH Eastern Radio will conduct another week-long test transmission from 7-13 August as it's frequency of 88.3FM.

The community station, located in the Fountain Gate shopping centre, covers a wide area of the Peninsula, Dandenong, Berwick, Cranbourne, Knox, Springvale and Hampton Park.

During previous broadcasts the station has had calls from as far away as Geelong, Coburg and Mornington saying they are enjoying the program.

South Eastern Radio is looking for support from sponsors who can see the value of this service to the community.

Anyone who would like to be involved with the station in either the technical side or programming is welcome.

A friendly group meeting is held monthly. For further information contact: Bridget Groves 794 0675, or Craig Davenport 560 9127, or the studio situated at The Fountain Gate Shopping Centre on 794 9099.

The Test Transmission is very near so if you would like to send in any announcements do so immediately.
